DECEMBER 2005

Architect and Exhibit Designers Join the Team

With great anticipation, the Board of Trustees has announced the names of architect and exhibit designers who will join the Board and staff in the creation of the expanded Park City Museum.

The Board has selected a San Francisco architectural firm, Mark Cavagnero Associates. They will re-design the old City Hall and old library buildings at 528 and 518 Main Street, thus quadrupling the size of the current exhibit space.

"The Board was very impressed with their experience in historic restoration and adaptive re-use," said Sandra Morrison, Executive Director, adding that the Board looked at proposals from more than 10 architectural firms across the nation.

The Board also poured through 30 proposals from exhibit design firms and selected West Office Exhibition Design from Oakland, Ca. "Their past work is highly creative," said Sandra Morrison. Members of the Board and staff journeyed to the California Science Center in L.A. and the Chabot Science Center in San Francisco to see examples of their work.

West Office's proposal also included unusual exhibits from the Washington State History Museum, the National Cowgirl Museum, and the Plains Indian Museum at the Buffalo Bill Historical Center.

"The selection of these highly qualified firms is a huge leap forward in our expansion project," said Sandra Morrison. "With their expertise we hope to break ground in the coming year."

◀ Mark Cavagnero Associates, experts in preservation, designed additions to the California Palace of the Legion of Honor in San Francisco

Curator's notebooks enrich the interpretation of artifacts at the Plains Indian Museum

△ West Office designed large screen video into this exhibit at the Plains Indian Museum in Cody, Wyoming

West Office proposed a sight and sound experience with a recreation of a stagecoach journey for the Wells Fargo Corporate Museum. Besides scenery and motion, visitors will feel hot and cold changes in temperature during their journey! ▶

Ski Through History with Hal

Many of the historic Park City mines and mills we hike to in the summer and fall are still accessible in the winter. While it takes at least three days of strenuous hiking to reach the major historic sites in the summer, the same trip can be accomplished in the winter with two enjoyable ski tours. This explains the growing popularity of the Park City Historical Society & Museum's winter event, "Ski Through History," led by historian, Hal Compton.

The first ski tour of 2006 at Park City Mountain Resort is scheduled for Saturday, February 11th and the second at Deer Valley Resort on Sunday, March 12th. Those interested in the tour at PCMR should meet at the Eating Establishment Express at 10:00 am. Those interested in the Deer Valley tour should meet at Snow Park Lodge at 10:00 am. Participation is limited. For information and reservations please call the Museum Office at 649-7457.

Ski through history with Hal.

Judge Judy Joins the Board

Judge Judith Billings

Judge Judith Billings, who sometimes humorously calls herself "Judge Judy," has joined the Board of Trustees.

Judge Billings is presiding Judge of the Utah Court of Appeals, on which she has served for 18 years. Previously, she served as a trial judge and as a partner in the law firm of Ray, Quinney and Nebeker. She serves as an adjunct professor at the University of Utah Law School.

Judge Billings has been named Utah Woman Lawyer of the Year, and received the Distinguished Alumni Award of the University of Utah College of Humanities and the University of Utah College of Law.

A member of several other boards including the Sundance Film Festival Utah Board of Directors, Judge Judy and her husband Tom have had a home in Park City for 30 years and lived here full-time for the past 12 years.

Museum Adds Summit County Families to Traveling Park City History Trunk

Second graders at the North and South Summit Elementary Schools are learning about Park City and Summit County history with a trunk full of artifacts and historic photos. The children learn the story of a Park City mining family along with the stories of Summit County farming, logging, and sheep herding families. Many thanks go to NaVee Vernon, Summit County Historian for preparing the Summit County learning materials for the Museum's traveling trunk. The trunks prepare the students for their visits to the Park City Museum.

North Summit Teachers Mrs. Mills, Mrs. Adkins, Mrs. Richins, Mrs. London

40 Years of Growth

Forty years ago Wayne Pratt photographed many Old Town buildings. His daughter Dori has now taken pictures from the very spot on which he stood -- or close to it since so many things have changed since her childhood. This March, Dori's "then and now" slide show will launch an evening of discussion on historic preservation and managing growth. Experts will discuss the issues associated with maintaining the character of Old Town's Historic District and managing Park City's burgeoning growth. Watch the newsletter for details.

What became of this substantial building?

How has this bank been transformed?

Park City Culinary, Wine & Ski Classic

The Park City Historical Society & Museum has been selected as a 2006 Beneficiary of The Underdog Foundation, whose mission is to help support community youth education, arts, advocacy, and athletic programs.

Don't miss their annual Park City Culinary, Wine & Ski Classic February 2-5, 2006. This year's fabulous event includes a Community Night, Kick-off Soiree, "Not Your Traditional" Ski Experience, Vintner Dinners, Luxury Kitchen Mardi Gras Parade, Masquerade Ball & Live Auction, and the "Hair of the Dog" Brunch at the Blind Dog Restaurant.

To make your reservations and to support the Park City Historical Society & Museum, call 615-7900 or email info@parkcitywineclassic.com or visit www.parkcitywineclassic.com.

Math Volunteers Needed

Consider the following problem:

In 1881 the Ontario Mine Company, located at the top of the Mine Road in Park City, purchased a huge pump from Cornwall, England. Called the "Cornish Pump," this machine lifted 2,560 gallons of water every minute from the bottom of a 1,000-foot shaft.

- How many gallons did it pump in an hour?
- If the pump ran 24 hours a day, how many gallons did it pump in a week?

At first glance, this problem is about math, right? No, this problem is about history. The Education Curator, Lola Beatlebrox, is developing a workbook of word math problems with Park City number facts.

Do you love math? Help write problems for all grade levels. If you would like to be part of this exciting project, please call Lola at 649-7457 or email lola@parkcityhistory.org.
